CAREER GUIDANCE AND PLACEMENT CELL - A REPORT

" The company is known by the people and its employees". Human Resource is the combination of quantities and qualitative assessment of Human beings in the society. It does not mean only the number of people working in the organization, but is the aggregate of employees, employee skills, knowledge, ability, talents, aptitude, efficiency and varied soft skills. The success, failure and survival of an organization largely depend on ' **People Skills'** retained and how efficient, experienced and capable employees are procured, recruited and retained.

In today's Industry & the world, education alone is not enough. The industry needs students who are equipped with the right skills & Attitude. The current education system loads the students with knowledge alone which cannot give them an edge. Our college not only gives students best academic inputs but also trains them in required **SKILL & ATTITUDE** needed for today's industry in a very unique way, integrated with a program that ensures the balanced development of a students' **Emotional Quotient** (Including development of courage, confidence, communication skills, overcoming fears, etc,)along with their **Intelligence quotient,** critical to their age.

The challenge in today's global competition is not just about being able to assimilate information but is more about how the knowledge assimilated is applied in the market. An educated and well informed individual is **an asset to a Family and an Ornament to the Society.** 'Skill development gives one self-confidence and sense of well-being'.

By 2030, India will be among the youngest nations of the world, with nearly 140 million people in the college-going age group. One in every four graduates in the world will be product of the Indian education system. Higher education in India has recorded impressive growth and offers great potential.

India's higher education system is the third largest in the world, next to the United States of America and China. India is the second largest growing economy in the world next after China.

The main governing body at the tertiary level is the University Grants Commission (UGC), which enforces its standards , advises the government and helps coordinate between the Centre and the States. **Higher Education** is a door to greater job opportunities and a better quality of life.

It is important to throw light on Life Skills and Personality Development, Critical thinking, Civic Sense and Understanding inner passions that lead to an overall **Holistic Development** of Individuals.

Guiding light:

A reality that needs correction is that most students wait until the end of other basic education before deciding upon a career option. Career planning is a continuous process and should ideally start at the school and Pre-University level itself.

Make the right choice and course of action

Students, who are unable to score well in the exams, need not lose heart. There are a number of career options that can take them to greater heights. There are many new courses that are available in India today. It's time students decide to take the **road less travelled** and get themselves enrolled in one of the offbeat fields to chart a successful career.

The following Programmes were conducted under the auspices of the Career Guidance and Placement cell of our College during the period June 2017 to May 2018.

1. 'WHAT NEXT', a programme was organized on 03/07/2017 to guide the students how to pick a good course and to get a ticket to a bright future and career after their under graduation. Prof. George Manual, Head of the department, Humanities, St. Joseph college, Bangalore, rendered a powerful speech.
