<i>2017 - 18</i>	<i>78</i>	<i>61</i>	<i>100</i>

<i>2020 - 21</i>	<i>67</i>	<i>61</i>	<i>86.66</i>

There had been a steady increase in the pass percentage of the BA students until the onset of the pandemic. Efforts are being made to recover the current status to the 2018-19 standards through extra efforts by the teachers.

The pass percentage has seen a steep fall in the B Com section during the year 2017-18. The reason for that was, a good number of students had failed to pay the examination fee for the fourth semester and consequently, their results were held up. The subsequent year found a remarkable recovery (69%). However, the devastating pandemic checked the growth in the ensuing two years.

The performance of the M Com has been consistently steady with one hundred percent result each year until the pervasive epidemic shook the academia.
